

Buliding Blocks for Sensory Integration

Online • February 9-10, 2019

Course Summary

This two-day, online, course provides therapists with an understanding of the developmental and neuro-physiological links between sensory integration and the basic primary movement patterns (primitive and postural reflexes) that provide the foundation (or building blocks) for sensory modulation and integration.

Beginning with support of the primitive reflexes, we will explore the development of posture and its relationship to self-regulation along with visual and auditory function. This course will allow participants to use their clinical observations for the clients who are often difficult to test using standard measures. Video examples will highlight treatment strategies that can be implemented with and without therapy equipment, making them appropriate for all clinical settings.

A range of intervention strategies designed to support functional performance will be presented, and participants will leave with a systematic way to assess, document and treat the movement challenges that arise from the lack of effective sensory motor integration.

Course Objectives

Upon completion of the course, participants will be able to:

- Recognize the link between reflex integration, postural development, sensory modulation & behavioral challenges.
- Identify primitive and postural reflex development; and its impact on daily function.
- Choose simple, yet powerful, strategies for integration across multiple environments.

"I have found this to be the most beneficial continuing education course I have ever attended! I was a bit nervous about attending virtually but I don't feel that anything has been lost compared with a live presentation. The information is all appropriate to the topic and my profession and will be immediately applicable to my population. Sheila is a fantastic presenter and has done a wonderful job explaining each concept for thorough understanding. So many "ah-ha!" moments today!"

--Jamie S., OT

Buliding Blocks for Sensory Integration

Instructors

Sheila M. Frick; OTR/L, is an internationally esteemed clinician, lecturer and pioneer in Occupational Therapy. She has over 20 years of clinical experience, having worked in psychiatry, rehabilitation and home health before specializing in pediatrics. Her expertise includes sensory processing dysfunction, sensory integration and auditory interventions. She created and continues to expand Therapeutic Listening®, which she has taught to over 10,000 therapists worldwide. She also lectures on such topics as clinical neurology, respiration, the vestibular/auditory system, and various auditory interventions. She is the creator and author of Listening with the Whole Body, and co-author of Core Concepts in Action, Astronaut Training, and Out of the Mouths of Babies.

Disclosure:

Financial - president of Therapeutic Resources, Inc. of which Vital Links is a subsidiary.

Non-financial - married to Ronald Frick, president of Vital Sounds, Inc.

Disclaimer:

Some of the music selections (Quickshifts) and therapy balls that are used in the Building Blocks course are developed & sold only by Vital Sounds, Inc. This presentation will focus exclusively on Quickshifts & will not include detailed information on other binaural beat technology. Vital Sounds is a sister company of Vital links.

Course Materials

Each participant is asked to have a yoga mat & gym ball (fits you to sit at 90/90) available during the course's online labs. Registrants will receive an email within a week of the course containing instructions on how to access the webinar & printable course materials, such as, the PowerPoint handouts.

Continuing Education Units

APPROVED PROVIDER of CONTINUING EDUCATION

by The American Occupational Therapy Association, Inc.

This course offers 12.5 contact hours or 1.25 AOTA CEUs. The assignment of AOTA CEUs does not imply endorsement of specific course content, products or clinical procedures.

Vital Links is approved by the American Occupational Therapy Association (AOTA) as a provider of continuing education.

Level: Introductory

Target Audience: Occupational Therapy

Completion Requirements: Full Attendance, Participation, Test

Classification Code: Client Factors, Performance Skills, Intervention

Vital Links Division of Therapeutic Resources is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language

pathology and audiology. **See course information for number of ASHA CEUs, instructional level and content area.** ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

ASHA CE Provider:

This course is offered for 1.25 ASHA CEUs (Introductory Level, Professional Area)

Buliding Blocks for Sensory Integration

Online • February 9-10, 2019

Times listed are in Central Time (CDT/CST)

Saturday, February 9, 2019

- 8:30 Check-In Begins
- 9:00 Announcements & Introductions
- 9:10 Historical Perspective & Current Thinking Regarding Reflex Integration Programs
- 10:00 Primary Movement Patterns & their relation to Sensory Processing & Sensory Integrative Dysfunction
- 11:00 Short Break
- 11:10 Lab – Assessment & Treatment Activities
- 12:25 Extended Break
- 1:05 Primary Movement Patterns Related to Vestibular-Auditory-Visual Function
- 2:50 Short Break
- 3:00 Lab – Assessment & Treatment Activities
- 4:15 End of Day One

Sunday, February 10, 2019

- 8:30 Check-In Begins
- 9:00 Announcements & Introductions
- 9:05 Primary Movement Patterns & their relation to Tactile Proprioceptive Processing
- 10:30 Short Break
- 10:40 Primary Movement Patterns & their relation to Posture & Balance
- 12:25 Extended Break
- 1:05 Lab – Assessment & Treatment Activities
- 2:05 Clinical Case Studies, Problem Solving, Questions
- 3:05 Short Break
- 3:15 Clinical Case Studies, Problem Solving, Questions
- 4:15 Test
- 4:45 End of Course

Cancellation Policy

Cancellations requesting a full refund must be in writing and received by Vital Links two weeks prior to the course; refund will not be granted after that date. Approved refunds will be issued after the final course date (minus \$50 processing fee). Cancellation requests may transfer full credit towards another Vital Links course if notification is received in writing at least 7 business days prior to the start date. Vital Links reserves the right to cancel any course with due cause and refund in full. There are basic computer/device requirements for Vital Links online and on-demand courses. Vital Links is not responsible for device compatibility issues, and it is each participant's responsibility to ensure their device is compatible with the noted platform and services.

Accessibility Policy

In compliance with the Americans with Disabilities Act, Vital Links will make every effort to honor requests for reasonable accommodations made by individuals with disabilities, including but not limited to written transcripts, multiple viewing attempts, and increased amount of time to complete training activities. It is a priority for Vital Links to ensure participation in all courses and activities for all individuals. Vital Links is committed to ensuring non-discrimination and to resolving any complaints related to a disability in a prompt and equitable manner.
